

# Gubagoo x Google Integrations

Our integrations take you further – from search to sale and beyond!

## Cars for Sale

We have partnered with Google to give you the opportunity to display your cars-for-sale inventory directly on Google Search. People searching for your dealership will be able to see availability, pricing, and key information about the cars for sale – all directly on Google.

## Google Business Messaging

Available to add to your Cars for Sale integration, Google Business Messaging allows customers to start a conversation directly from organic Google search results and Google maps. Message inquiries on Google are fully managed by Gubagoo, giving you access to more leads in one centralized dashboard.
