

# Gubagoo x Google integrations

Our integrations take you further – from search to sale and beyond!

## Vehicle Listings

We have partnered with Google to give you the opportunity to display your inventory directly on Google Search. People searching for your dealership will be able to see availability, pricing, and key information about the cars for sale – all directly on Google.

## Google Business Messaging

Available to add to your Vehicle Listings integration, Google Business Messaging allows customers to start a conversation directly from organic Google search results and Google maps. Message inquiries on Google are fully managed by Gubagoo, giving you access to more leads in one centralized dashboard.
